

# 3M™ Circulation Accessories

## **a** 3M™ Bookcheck Unit Model 942

This unit saves time and space while helping to ensure reliable processing. It effectively desensitizes and resensitizes 3M™ Tattle-Tape™ Security Strips on print materials, CDs and DVDs. It also features an intuitive interface, ergonomic design and durable housing.

## **b** 3M™ Mediacheck Model 325

Insert videos, DVDs, or CDs and security strips either resensitize or desensitize. It's quick, reliable, and there's no need to remove media from the case. Process up to two videos or six CDs at once. It also processes print media.

## **c** 3M™ Desensitizer Model 763

This unit processes audiocassettes and videocassettes. With continuous desensitization, it's fast and efficient.

## **d** 3M™ Desensitizer Model 930

This fast, efficient device adapts to virtually any checkout configuration and is ideal for high-volume checkout-only operations. It safely desensitizes Tattle-Tape™ Security Strips on print materials and CDs.

## **e** 3M™ Hand Held Desensitizer Model 766

This device rapidly processes non-print media at checkout. Simply pass the unit over the security strip, and it's safely desensitized. There's no need to remove cassettes from their cases, so it's ideal for checking out spoken word audiocassettes.

## **f** 3M™ Resensitizer Model 764

This portable unit fully resensitizes Tattle-Tape™ Security Strips on print materials and CDs, ensuring a fully secured collection.

## **g** 3M™ Resensitizer Model 2011

This portable tabletop device resensitizes 3M DVM-1 and DAC-1 Security Strips. It's completely safe for all magnetic media, including audiocassettes and videocassettes. Security strips are resensitized in one pass.
