26. **Central Contractor Registration:** Contractor is registered.

## 3M™ Advanced Systems Tester 900AST

*Your Total Solutions to Maintenance Wiring Problems!*

The 900AST tester is a handheld, integrated test set designed specifically for locating faults (opens, shorts and intermittents) in the wiring of various transportation classes including that of most military, commercial and private aircraft. With the 900AST tester, aviation mechanics can quickly locate faults and verify repairs on various conductor types utilizing the Resistive Fault Location (RFL) and Time Domain Reflectometer (TDR) functions. In addition, the 900AST tester supports a full range of individual tests to categorize and sectionalize potential problems. A key benefit of the new tester is the ability to display the distance to a fault in inches or centimeters.

Stock Number: 80-6113-1157-4  
Billing Unit: Each

Government Prices:	1-99	\$4,030.00
	100-199	\$3,828.50
	200+	\$3,627.00
