

3M™ Digital Wall Display

Shipping Case

For all models:

7000, 8000, 9000, 9000 Plus Series

This case is specifically designed to protect your 3M Digital Wall Display during shipment by common carrier.

The unique design incorporates two sets of tilt wheels so the case can roll along its narrow edge when going through doorways or width-wise down hallways.

The exterior of the case uses high strength laminate plastic which is permanently bonded to the core plywood surface. All handles and twist-lock latches are recessed to prevent damage during shipping. The case also features extruded aluminum edges and steel corners.

The interior foam is cut to fit perfectly around the 3M Digital Wall Display.

TECHNICAL SPECIFICATIONS:

Dimensions: 59" L x 53" H x 12" W

Weight: Approx. 150 lbs. empty
